WITH OR WITHOUT A TURBO CHARGER

JUST A REMINDER - - -

The PA-24-260 is equipped with Avco Lycoming IO-540N1A5, and the recommended Champion spark plugs are the REM38E, REM38P, or REM38W.

BUT,

The PA-24-260 TURBO is equipped with the Avco Lycoming IO-540R1A5. The difference, of course, is due to super-charging the engine, whereby different cylinders are used that require the longer reach spark plug. These cylinders are identified by yellow paint on the cylinder fins between the spark plug boss.

The approved Champion spark plugs are the RHB37E, RHB36P, and RHB36W.
