A CHAMPION PLUG FOR THE NEW CESSNA 152 TRAINER

The new Cessna 152 Trainer is equipped with a Lycoming O-235 L2C engine. The original equipment spark plug for this 110 h. p. engine is the Champion REM38E. Along with this, Champion offers as alternate plugs, the RHM38E, RHM38P, RHM38W, REM38P, and REM38W.

As a reminder, our October 24th Bulletin No. 77-7 advised that the Lycoming Oil Filter Kit No. LW-15527 included the Champion CH48110 spin-on oil filter for use in this engine.

Whether it be oil filters or spark plugs, you can be sure of dependable engine performance with Champion products.
