## KNOW YOUR OIL FILTERS

CONTROLLED  
COPY

The above illustration depicts Champion's spin-on oil filter line comprised of three short filters - the CH48103, CH48108 and CH48110; and three long filters - the CH48104, CH48109 and CH48111.

The CH48103 and CH48104 filters are interchangeable; the CH48108 and CH48109 filters are also interchangeable; as are the CH48110 and CH48111 filters. Any aircraft presently using the short filter can also utilize the longer filter providing there is sufficient space in the engine accessory section to accept the larger filter.

In addition, although not incorporated in the 1978 Aviation Products Catalog, the CH48105 and CH48106 filters are interchangeable with the CH48108 and CH48109 filters, providing the oil filter by-pass valve is contained in the oil filter engine adapter.

Consult your Champion Representative for assistance if required.
