USE CORRECT FILTER WITH CH48922

Filter installations requiring the use of Champion's CH48922 converter kit are approved for use only with the CH48103 or CH48104 spin-on oil filters. Under no circumstances should the converter kit stud be removed to allow installation of a CH48110 or CH48111 in its place. This unapproved application may result in less than full thread engagement.
